* Newlands College is compliant with the Code of Practice

We welcome International Students as part of our school community and offer a caring and friendly atmosphere.

Hundreds of international students from all around the world have enjoyed the extensive support provided by the experienced Newlands College International Department. Our orientation allows students to ease into studying; with a chance to explore all that Wellington has to offer whilst improving their English for school and home life.

Newlands College provides an excellent education as a foundation for tertiary study. Teachers have outstanding knowledge of their subject. The relationships between teachers and pupils are based on mutual respect and encourage learning.

The school has many strengths including: the quality and commitment of the staff, excellent pastoral care and the range and quality of activities available. Their contribution to pupils' education, personal development and welfare is very positive.

Care

Location and Facilities

The school is situated in the Wellington suburb of Newlands, 10 minutes' drive from the city centre, which is a safe, thriving community. Classrooms and buildings are of a high standard with a number of brand new teaching facilities. The school has 50 acres of grounds, a large recreation centre and modern specialist teaching areas.

Academic Programme

There is a large choice of courses and options to cater for individual student needs from Years 9-13. Extension and enrichment programmes help students to excel; including a comprehensive mentoring programme. Newlands College has a consistently high level of academic success, and most gain entrance into university courses of their choice. High standards of discipline and good conduct are required. High quality teaching, close individual care, attention and opportunities for personal development, help pupils to enjoy their time at our school. This enables students to grow in confidence and to achieve high standards in all aspects of their work.

Challenge

Co-curricular Programme

Drama, music and sport are all popular co-curricular activities. The arts faculty provide a number of groups. There are also opportunities to perform in dramatic productions and each year the school stages a school musical.

Choirs, orchestra and individual instrumental tuition are available for students.

Newlands College offers badminton, basketball, dragonboating, football, netball, rugby, volleyball and more than twenty other sports. Many students from our school have been chosen for Wellington representative teams in their chosen sport, and some have received national honours.

Student Welfare and Homestay

Newlands College provides comprehensive care for our International Students through our International Student team, co-ordinated by the International Student Director and supported by a Dean, Homestay Counsellors, Form Teachers and ESOL staff.

Success

All students who are homestayd by the College, are met at the airport by the Homestay Counsellor. She continues to meet regularly with each student to give guidance and to help them adjust to living with a local family.

Our homestay families are carefully selected and monitored to ensure the students have a positive experience.

English Language Support

Qualified and experienced teachers work with students in groups or individually. We have staff who can speak European and Asian languages.

Tuition Fees

Full details of our fees for tuition, homestay, administration and other associated school related fees are available on our International Student information on our website.
